QUALITY, INNOVATION, AND VALUE

OUR CORE VALUES:

- Quality:** Superior product design, uncompromising components and material.
- Innovation:** New lighting technologies that improve quality of life and install quickly and easily.
- Value:** We deliver quality and innovation at a great price.

ETi's Color Preference® patented technology provides multiple CCT choices in one fixture. Colors range from 2700K to 5000K depending on the product. Simply move the switch on the back of the ETi fixture to obtain the desired ambiance for any room.

U.S. Patents - 10,091,855, 10,462,871, 10,492,262

All of our NightLightR™ models feature an integrated 2000K CCT night light hidden in the base of each light fixture. The light fixture can be switched from white light to night light using the rooms light switch. The warm 2000K indirect light creates a comforting glow at night.

U.S. Patent Pending

Like our Color Preference® technology, Lumen Boost™ allows users to select the best light output for their lighting area. Easily adjustable intensity meets the needs of different room sizes, adjust for user preferences, and activities.

The LowPro™ line of LED downlights is unmatched in the marketplace at a slim 1.3" profile. LowPro™ downlights are designed for difficult low clearance installations. These lights can be installed in ceiling locations that traditional downlights do not fit. Mounting guide plate accessories are now available for new construction/remodel projects.

SnapFit Mounting Systems™ is an innovative mounting system which makes installation quick and easy. Simply secure the bracket that is included with the ETi product to a j-box and snap the fixture into the bracket.

ETi is always developing innovative ways to install lighting fixtures to enhance the customer's experience. From wrap lights with hinged lens covers to screwing in fixtures with ETi's patented SpinLight® collection. ETi continues to develop technology that makes wiring fixtures a breeze.

HID REPLACEMENT LAMPS

PT SERIES

HID REPLACEMENT LAMPS

360° Omni-Directional Retrofit

Upgrade to LED but keep existing, historically significant light fixtures!

ETi Advantage

- ✓ Replaces HID Lamps from 70w to 400w
- ✓ Up to 150 LPW efficacy
- ✓ IP64 moisture rating
- ✓ Intelligent thermal protection for superior enclosed fixture performance
- ✓ Integrated 6kV surge protection
- ✓ DLC APPROVED (EX39 ONLY)
- ✓ 5 Year warranty, L70 >50,000 HRS

120-277V Multi-Volt 80 CRI

Directional Post Top Retrofit

Angled LEDs deliver more light to sidewalk and street surfaces.

ETi Advantage

- ✓ Replaces HID Lamps from 150w to 50w
- ✓ Up to 150 LPW efficacy
- ✓ IP64 moisture rating
- ✓ Intelligent thermal protection for superior enclosed fixture performance
- ✓ Integrated 6kV surge protection
- ✓ DLC APPROVED (EX39 ONLY)
- ✓ 5 Year warranty, L70 >50,000 HRS

120-277V Multi-Volt 80 CRI

Angled LED Array

Delivers brighter lighting to walkways, grassy areas and roads when used in decorative post tops

Convertible for "base-up" or "base-down" installations

Great Retrofit Solution for Decorative Post Top and Bollard Fixtures

Great Retrofit Solution for Decorative Post Top and Bollard Fixtures

Superior Optical Performance & Electronic Design
Intelligent thermal protection for superior enclosed fixture performance.

Robust, Durable Construction

- IP64 rated housing superior when installed in leaky fixtures.
- EX39 base version

BALLAST BYPASS LED GLASS TUBES

DOUBLE END POWER

EZ Install Bypass Ballast Retrofit

Double-End Power. T8 & T5 Retrofits up to 150 LPW.

ETi Advantage

- ✓ EZ Install “double end power” design
- ✓ No need to replace shunted sockets
- ✓ Simple ballast bypass rewiring
- ✓ Available in standard and shatter resistant glass
- ✓ Complete linear LED solution 4’ T8, 8’ T8 and 4’ T5 retrofits
- ✓ Ultra low T8 12w LED delivers payback in less than 6 months!
- ✓ Get 15-25% greater energy savings versus typical 14w-16w T8 retrofits
- ✓ 45% lower installation costs* versus single end power Type B retrofits

*(\$8/tube for EZ install vs. \$15/tube for Type B single end)

BALLAST BYPASS LED GLASS TUBES

DOUBLE END POWER

T8 Power Double End Power Integral Driver Shatter Resistant Glass Tube

No need to replace sockets. Can be used with either shunted or non-shunted sockets.

Never worry about ballasts again!

- Ballasts will fail! Avoid future ballast failures that are often seen after installing Type A (ballast compatible) retrofits lamps.
- No “ballast compatibility” issues especially with “multi-lamp per ballast troffers.”
- No ballast noise and eliminate ballast power consumption.
